PRODUCT ALERT NOTICE

Tokuthion Insecticide Spray “Tokuthion” (APVMA Approval No. 33087)

Arysta is no longer supporting the use of Tokuthion in table grapes, and have voluntarily cancelled the use of Tokuthion Insecticide Spray on table grapes with Australian Pesticides & Veterinary Medicines Authority (“APVMA”). Newly varied labels have been approved by the APVMA (APVMA Approval No. 33087/117456) which allows for the use of Tokuthion on bananas, pears, broccoli, brussels sprouts, cabbage, Chinese cabbage, kale and kohlrabi.

Relating to this cancellation, Arysta LifeScience is conducting a voluntary recall and will facilitate the relabeling of product in accordance with the newly approved label. If you have any product in your possession that you wish to return under this recall, please return to the place of purchase.

The upcoming APVMA Gazette due for publication on 9 October, 2018 will outline instructions in relation to the supply and use of Tokuthion bearing cancelled product label approvals. Please refer to the APVMA Gazette via the following link:
<https://apvma.gov.au/news-and-publications/publications/gazette>.

For Further Information contact Arysta LifeScience: Recalls Coordinator on 08 8112 0900.
